To Whom it May Concern:

Our company contracted with VR Metro to redesign and upgrade our antiquated web site. We have been extremely happy with the results and have found VR Metro to be a great company to work with. They completed their work in a timely fashion and followed thru on their obligations top to bottom. In addition to our web site, we entrusted them as our email service provider and have found them to be very capable in that area as well.

VR Metro is extremely knowledgeable in their field and we would recommend their services to others needing their kind of expertise.

Sincerely,

Paul VanBuhler
President
